

## **FDA Grants Priority Review to HIV Monoclonal Antibody and Long-Acting Investigational Antiretroviral Ibalizumab**

June 30, 2017

Theratechnologies Inc. (Theratechnologies) (TSX: TH) today announced that it has been notified by its partner, TaiMed Biologics, Inc., that the U.S. Food and Drug Administration (FDA) has accepted for review the Biologics License Application (BLA) for ibalizumab as a treatment for multidrug resistant Human Immunodeficiency Virus-1 (MDR HIV-1).
